

Pharmaceutical Technology Diploma

Pharmaceutical Technology diploma aims to qualify the pharmacists and develop their abilities to practice the pharmaceutical manufacturing in the industrial factories. Also, to develop their practical skills via learning different tasks to perform and run experiments in laboratories connected to industrial manufacturing. In addition, developing the skills of the pharmacists to solve the problems arises during manufacturing.

Semester	Code	Course Title	Credit Hours		Exam Time	Grades			
			Lecture	Practical		Written	Practical	Oral	Total
First	DPI-201	Pharmaceutical Engineering	2	1	2	60	20	20	100
	DPI-202	Advanced Pharmaceutical Technology	2	1	2	60	20	20	100
	DPI-203	Industrial Administration	1	-	1	40	-	10	50
	DPI-204	Industrial Safety	1	-	1	40	-	10	50
Second	DNP-210	Computer Aided Management	1	1	2	25	15	10	50
	DPT-216	Advanced Biopharmaceutics	2	1	2	60	20	20	100
	DPT-217	Advanced Physical Pharmacy	2	1	2	60	20	20	100
	DPI-205	Good Manufacturing Practice	2	-	2	80	-	20	100
