Students  
in 2019~2020**

- In 1960- 57 students
- In 2020, the number of students reached 3,380 students.

## How to apply in the university?

Come and see what does the faculty of Medicine offers during AUN's open day or contact the faculty to arrange a visit. Undergraduate admission differs depending on whether you are a high school student or whether you want to transfer from another university to AUN. t

It is widely acknowledged that the transition from school to University is significant - the quantity of work, the pace at which material is covered and the conceptual complexity are all greater than students have experienced at school. Our experience has shown that many first-year students can overcome the difficult transition from high school to University by receiving a reduced learning load in their first year and by spreading the curriculum over a four year Period. Visit the faculty of Medicine at AUN website to know more about the admission.

## Departments

- Department of Anesthesia and Intensive Care
- Department of Physiology
- Department of Anatomy
- Department of Biochemistry
- Department of Cardio-Thoracic Surgery
- Department of Cardiology
- Department of Chest Diseases
- Department of Clinical Oncology and Nuclear Medicine
- Department of Clinical Pathology
- Department of Dermatology, Venereology and Andrology
- Department of Diagnostic Radiology
- Department of Ear, Nose and Throat (ENT)
- Department of Gastroenterology and Tropical Medicine
- Department of General Surgery
- Department of Histology
- Department of Internal Medicine
- Department of Microbiology and Immunology
- Department of Neuro Surgery
- Department of Neurology and Psychiatry
